Grade - 83%

Work Expereience

Backend Intern, Ludhiana
AUGUST 2021 — JANUARY 2023

Worked for more than a year, and gained experience in Node.js, MongoDB, and MySQL. Contributed to a positive work culture and skill improvement.

Projects

Eventify
Event management website: Empowers admins with full event control—creation, updates, and removal for a streamlined process. Users efficiently manage profiles, register for events and access participation certificates.

Video Chat App
Developed a real-time video chat application using Node.js, Express, WebRTC, Socket.io, & EJS Enabled users to connect for audio and video conversations.

QR Code Generator
Created a QR code generator web application using Node.js and Tailwind CSS. It allows smartphone users to access websites quickly and easily by scanning QR codes.

File Uploader
File upload web application that allows users to upload files of all types to a MongoDB database using Node.js, Multer, and GridFS.

Certification

Node.js, Express & MongoDB, Udemy
OCTOBER 2022

System Design, Udemy
JANUARY 2023
