Summary

I am a dedicated Web Developer with a strong passion for learning and a solid foundation in JavaScript and web development technologies. I am currently pursuing my B-Tech in Computer Science, I am eager to leverage my skills and knowledge to make a meaningful contribution to the field of web development while continuing to grow and evolve in this dynamic industry.

Education

Guru Nanak Dev Engineering College   August 2020 - June 2024
Computer Science   B.Tech
8.3 CGPA

BCM Sen Sec School   April 2019 - March 2020
Science   Intermediate Education(12th)
93%

BCM Sen Sec School   April 2017 - March 2018
83%   Secondary Education(10th)

Experience

Auribises Technologies   Jan 2024 - Present
Full Stack Intern   Ludhiana

Working with Angular and Firebase involves building web apps using Angular for the front end and Firebase for backend services like authentication, real-time database, and cloud storage.

Higheredd   July 2021 - January 2023
Backend Intern

Worked for more than a year, and gained experience in Node.js, MongoDB, and MySQL. Contributed to a positive work culture and skill improvement.

Technical Skills

Languages
C++, Javascript, HTML

Framework
Node.js, Express.js, Angular.js, Bootstrap. Tailwind,

Databases
MongoDB, MySQL, Firebase

Projects

Eventify
Event management website: Empowers admins with full event control—creation, updates, and removal for a streamlined process. Users efficiently manage profiles, register for events and access participation certificates.

https://github.com/k9h7u8/Eventify

Video Chat App
Developed a real-time video chat application using Node.js, Express, WebRTC, Socket.io, & EJS Enabled users to connect for audio and video conversations.
